## Opportunities for Retiring University Employees

The University of Maine Alumni Association, [www.alumniassociation.com](http://www.alumniassociation.com), provides retiring employees with a complimentary two year membership subscription to *Maine* magazine. This membership also provides a variety of valuable benefits and helps support the Association in its efforts to continue its service to the University of Maine, its current students, and its graduates.

The Council works to enhance communication between the University and retired employees. The Council encourages active involvement of retirees in the life of the University and provides advice to the President on matters of importance to retirees.
