

American Pharmacists Association™
Improving medication use. Advancing patient care.

**Official
Policy of the
American
Pharmacists
Association**

2004 Medication Disposal

1. APhA encourages the Environmental Protection Agency and other appropriate entities to continue research exploring any connection between the disposal of discarded prescription and OTC medications and contamination of the water supply.
2. APhA encourages the development of programs for safe medication disposal.
3. APhA encourages appropriate government entities to accept responsibility for implementation and associated costs of safe medication disposal programs for consumers.

(JAPhA NS44(5):551 September/October 2004)

1990 Proper Handling & Disposal of Hazardous Pharmaceuticals & Associated Supplies & Materials

1. APhA supports the proper handling and disposal of hazardous, pharmaceutical products and associated supplies and materials by health professionals and by patients to whom such products, supplies, and materials are provided.
2. APhA supports involvement with representatives from other health professional organizations, industry, and government to develop recommendations for the proper handling and disposal of hazardous pharmaceuticals and associated supplies and materials.
3. APhA supports the development of educational programs for health professionals and patients on the proper handling and disposal of hazardous pharmaceuticals and associated supplies and materials.

(Am Pharm NS30(6):45 June 1990) (Reviewed 2004)
